

ODDERO PODERI E CANTINE

La Morra, Barolo, Piemonte, Italy

ABOUT THE PRODUCER

Oddero stands as one of Barolo's most historically rich and yet traditionally anchored producers, boasting a legacy spanning over 200 years. Situated in Santa Maria, a hamlet of La Morra, on the eastern slopes, the estate's familial roots in winemaking date back to the 18th and 19th centuries when the family ancestors produced their inaugural Barolo in 1878. Today, Giacomo's daughter Mariacristina, along with her son Pietro and niece Isabella, represent the seventh generation steering the family winery. Their unwavering commitment to enhancing the winery's reputation is evident through substantial investments in vineyards and cellars, aiming to sustain and elevate the estate's esteemed quality.
